

Regional Member Application

FRICITION MATERIALS STANDARDS INSTITUTE, INC.

3069 University Drive, Suite 210
Auburn Hills, MI 48326

Dear Sir,

Thank you for your interest in becoming a Regional Member of the Friction Materials Standards Institute. There are many reasons to become a member of FMSI. This document outlines the eligibility requirements, the benefits, and the obligations of membership.

One of the most important reasons to join is that the FMSI part numbering system is trademarked. Therefore, it is particularly important that any company producing friction products, disc plates, or drum shoes and using or referring to the FMSI part numbers become a member. If a company chooses not to join but uses the FMSI part numbers, the company and its customers who use the FMSI part numbers may be liable for legal action.

BACKGROUND INFORMATION

The FMSI web site (www.fmsi.org) has a list of FMSI members, the objectives of FMSI, and other important information. It is also the portal into our members' only electronic catalog.

The enclosed items should help explain the activities of the Institute as well as the requirements for and benefits of membership:

To participate in a category, a company must be marketing that product line or type in the United States, Canada, or Mexico. If the company does not market its products in the United States, Canada, or Mexico, it may apply as a "zero" category member. The annual membership fee for "zero category" is US \$3,300.

This fee includes access to the FMSI electronic catalog for up to three users. For members desiring more than three users, there is an additional fee of US \$75 per year per user.

INITIATION FEE

To reflect the intellectual property value that FMSI has built over the years, a onetime initiation fee of \$8,000 is required. This initiation fee will be used to further protect the intellectual property of FMSI and its members. This fee is due with the application.

APPLICATION FOR MEMBERSHIP

Please complete the Application for Membership and the Category Filing forms. Both should be signed by a principal of the applicant.

Upon approval of the application, a copy of the FMSI Constitution and By- Laws will be sent to you along with a letter in which you agree to adhere to that document. An officer of the company should sign the letter and return it to FMSI. Membership cannot be finalized until this document has been signed and returned. If for some reason you are unable to agree to adherence, the application will be voided and the prepayments returned.

REGIONAL MEMBER - CATEGORY FILING

GENERAL - Regional Members not using the copyrighted FMSI numbers or the registered trademarks FMSI and FMSI in the U.S. or Canadian markets pay a uniform annual fee which is established by the Board of Directors. This fee is ordinarily less than that paid by Active Members (U.S. & Canadian manufacturers).

Where a Regional Member is using the Institute's trademarks and copyrighted FMSI numbers for marketing products in the United States or Canada, he will pay the same fee schedule established for Active Members. This fee depends on "categories" in which the member is engaged and is normally higher than the regular Regional Memberfee.

Categories

There are five categories: (1) Disc Brake Linings; (2) Drum Brake Linings; (3) Brake Blocks; (4) Clutch Facings; (5) Brake Shoes

(1) Disc Brake Linings or Pads - This includes disc brake linings or pads (or pucks), whether sold as the friction material only for subsequent attachment, or sold riveted, bonded or molded to the steel shoe. It includes all disc brake pads, regardless of size or usage (automotive or off-highway).

(2) Drum Brake Linings - Under 3/4" Nominal in Thickness - This includes drum brake linings or segments whether sold loose, attached to shoes or in roll form. There are normally sold for use on passenger cars, light and medium trucks, and on the fronts of certain heavy trucks.

(3) Brake Blocks - 3/4" Nominal and Over in Thickness - This includes brake blocks whether loose or attached to shoes. The 3/4" nominal thickness includes tapered blocks with a maximum thickness of approximately .700", with minimum thickness below .500". Block are ordinarily used on heavy duty trucks and off-highway equipment.

(4) Clutch Facings - This includes all loose clutch facings or facings attached to clutch disc or other carriers, both automotive and off-highway.

(5) Brake Shoes - Either disc brake backing plates and/or drum brake shoes sold as a finished product to friction material manufacturers, assemblers or rebuilders.

"Our Company is Engaged as Follows":

If a Regional Member offers a product in any of the above categories for sale in the United States or Canada, using the copyrighted FMSI numbering system or the FMS and FMSI trademarks, or if he offers that product for sale to distributors, rebuilders or others in the replacement market who use the FMSI numbering system on the Regional Members' products or cartons, advertising, etc., that Regional Member is engaged in that category.

FMSI and FMSI are registered trademarks of the Friction Materials Standards Institute, Inc.
